National Conference
on

Challenges and Opportunities for the New Generation Dairy Foods in India

9 - 10 September 2018

Organized by
NADS (I)
National Academy of Dairy Science (India)
and
CDT, SVVU
College of Dairy Technology
Sri Venkateswara Veterinary University
Tirupati - 517502 (AP)

Dear Friends,
Warm Greetings!

On behalf of the Organizing Committee, it is my pleasure and privilege to invite you all to the National Conference on "Challenges and Opportunities for the New Generation Dairy Foods in India" during 09-10 September 2018 which will be held at College of Dairy Technology, Sri Venkateswara Veterinary University, Tirupati. It's a great responsibility bestowed on us by the NADS (I) and the SVVU to host this mega event.

The changing demographic patterns such as increasing aged population, women in work force, health concerns of the consumers, income and education, increased purchasing power of consumers, changing life styles leading to several metabolic disorders, decreasing number of traditional families and increasing number of single house-holds worldwide have led to the development of new generation foods catering to the varied needs of the specific population. In this regard, dairy foods have been considered as the most important matrix for delivery of probiotics, prebiotics and many other functional and natural ingredients from plants, animals and microbial sources. Cheese, ice cream, yoghurt and Indian dairy products can be marketed as value added products by improving their functionality through technological intervention for the betterment of the wellbeing of consumers. Hence, the topic is selected to share the ideas on various types of new generation dairy products. A number of experts from the industry, regulatory bodies, academic and research institutes as well as medical professionals from all over the country will be taking part in the conference and sharing their research findings and views on various issues pertaining to the new generation dairy foods. It will be a good opportunity for all the delegates especially students and upcoming young researchers for networking with the experts from various allied fields.

On behalf of the organizing committee, I take the privilege of inviting esteemed faculty, galaxy of scientists, academicians, dairy scientists, young students and researchers from different corners of the country to the conference being held in the holy city of Tirupati. I am sure that it will be a memorable trip in your life.

I request you all for your active participation in this conference and make it a grand success.

Dr. K. Nageswara Rao
Organizing Secretary

HOST INSTITUTIONS

Sri Venkateswara Veterinary University

The establishment of Sri Venkateswara Veterinary University was the culmination of efforts during the period, 1955 to 2006 to strengthen education and services in the fields of Veterinary Science, Dairy Technology and Fishery Science in the State of Andhra Pradesh. The University was created by bifurcating the faculty of Veterinary Science comprising of Veterinary Science, Fishery Science and Dairy Science from Acharya N.G. Ranga Agricultural University, Rajendranagar, Hyderabad. The University ranked 41 among all Indian Agricultural and Veterinary Universities by NIRF in the country and has obtained ICAR recognition as well as UGC-12 B recognition..

College of Dairy Technology

The Dairy Technology Programme was started in 1983 by Acharya N.G. Ranga Agricultural University, Rajendranagar, Hyderabad under the faculty of Veterinary Science at the College of Veterinary Science, Tirupati. With the creation of Sri Venkateswara Veterinary University, the Dairy Technology Programme was brought under the control of Faculty of Dairy Science in 2007 and then it was elevated to college status during June, 2009. The College of Dairy Technology, Tirupati has been offering UG and PG programmes in Dairy Technology Courses. The annual intake for UG programme is 30 which include 5 students nominated by ICAR. The college offers PG programme in the disciplines of Dairy Microbiology and Dairy Technology. The CDT has well established experimental milk processing unit, advanced laboratories and smart classrooms for imparting theoretical and practical knowledge to UG and PG students.

National Academy of Dairy Science (India)

National Academy of Dairy Science (India) was established on 26th May 2010 with its headquarter at NDRI, Karnal. The mission of the academy is to achieve recognition as a credible think tank providing views on policy issues relating to promotion of scientific and technological talents who inter-alia would be powerful instrument in fostering a knowledge based vibrant Dairy Industry vis-a-vis the growth of national economy. Some of the main objectives of the academy are to encourage and promote the pursuit of excellence in the field of Dairy Science; to promote scientific and technological knowledge in Dairying including its practical application to problems of Dairy Industry and also to act as a body to promote the work of the eminent scientists and

technologist of the country. The Academy, since its inception, has been regularly organizing Seminars, Symposia, Conferences and Brain storming sessions on different topical issues.

About Tirupati

Tirupati is a famous temple city attracting thousands of pilgrims and devotees from all over the world every day. It is located at foot hills of Tirumala, the abode of Lord Venkateswara. It is well connected by road, rail and air from all the important cities of India. The temperature during September will be around 28 to 30 °C.

Reaching the SV Veterinary University, College of Dairy Technology & College of Veterinary Science

The University and colleges can be reached by road from Tirupati International Air Port (distance of 22 km), Tirupati East Railway Station (distance of 5 km) and Andhra Pradesh State Road Transport Corporation Bus Station (distance of 6 km). Chennai International Air Port is about 140 km from Tirupati.

Accommodation

All possible efforts will be made to provide accommodation to the registered delegates in the University Premises/Hotels in Tirupati. The University has limited accommodation at its own guest houses which can be arranged on first-come-first-serve basis depending upon availability and as per university norms. Shared accommodation will be arranged for students in single rooms. Registration fee along with an advance amount of Rs.2000/- should be sent for booking accommodation in hotels to avoid last minute problems. The tariff ranges between Rs.1000 - 5000 per person per day. Please inform the details of your accompanying persons, if any, for specific accommodation.

REGISTRATION
