Information Brochure

Training Programme

“Enhancing competencies of
field veterinarians through
hands on skills training in 3Cs”

(November 18 – 22, 2019)

Sponsored by

Organized by

Department of Veterinary & A.H. Extension Education
NTR College of Veterinary Science

Gannavaram-521102

(Sri Venkateswara Veterinary University,
Tirupati. Andhra Pradesh)

Aim of training Course

In the field conditions, a veterinarian who is the crucial middle level livestock extension functionaries need to provide input services to augment production and health services in addition to extension and information services. A good livestock extension professional requires efficiency in both process and technical skills addressing livestock farmers' needs. Among the technical skills clinical and para-clinical are of utmost important along with process skills especially communication skills for a livestock extension professional. Keeping this in view, a five-day training programme has been planned and proposed to empower the field veterinarians through capacity building in the major activities i.e. clinical, para-clinical and communication skills.

Core topics of the training:

1. Extension communication skills
2. Advanced techniques-clinical: *hands on skills* training (medicine, gynaecology and surgery).
3. Latest disease diagnostic methods- para clinical: *hands on skills* training (microbiology, biochemistry, parasitology and pathology).
4. Identifying methods of livestock product adulteration and effect of antimicrobial resistance on livestock production.

Resource Persons:

Expertise available with the
Sri Venkateswara Veterinary University

Potential Participants:

The training course is meant for field veterinarians working in State Department of Animal Husbandry/Dairy Cooperative Federations. A total of 20 participants will be selected for the course by a screening committee as per the norms. No course fee will be charged from the participants.

Travelling, Boarding and Lodging:

The selected participants will be provided free boarding and lodging in the institute guest house on sharing basis. The travelling expenses are to be borne by sponsoring institution or by the candidates themselves.

About the Institute:

NTR College of Veterinary Science, Gannavaram (Sri Venkateswara Veterinary University, Tirupati, Andhra Pradesh) came into existence during 1997-98 and was the first college in the region of Coastal Andhra Pradesh catering to the needs of livestock farmers. The college has three main campuses Viz., main campus with 10 departments and (3Andhra) R&V regiment (NCC unit), livestock complex with three departments, livestock farms and fodder production units, Veterinary Clinical Complex accommodating clinical departments. The college is offering PG & Phd programmes along with the five- and half-year B.V.Sc. & A.H. programme. The institute is located on the Chennai-Kolkata National Highway (NH5) opposite to the Vijayawada International Airport and is about 22 Km away from the Vijayawada City. The climate during proposed training duration is expected to be comfortable with temp. between 23° C - 28°C.
